

What we're doing to keep everyone safe!

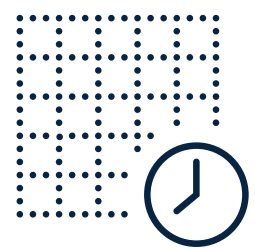

Hand sanitiser at all entry and exit points to the building and in all classrooms. Plenty of signs to remind everyone to use it & to wash hands frequently

Everyone keeps a minimum of 2m apart

Big classrooms with plenty of space. Each student has their own desk space which remains the same, and their own coursebook

A staggered timetable to give everyone plenty of space in their break time

BEET has two staircases: one up and one down enabling a one-way system

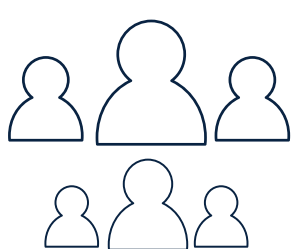

Clear signage and tape marking which way to move around the building

An attractive outdoor area for breaks when the weather allows

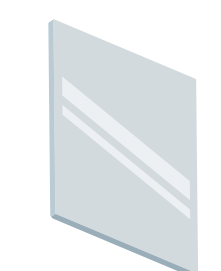

Classrooms cleaned and sanitised at the end of each day. Surfaces and touch points cleaned throughout the day

Students and teachers form groups called "bubbles". As there are separate "bubbles" in the school, it is less likely that any infection can spread

Plenty of ventilation all round the building

The usual friendly welcome from Reception and Accommodation staff, but with screens in place
