

# What we're doing to keep everyone safe!

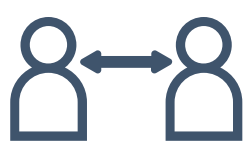

---

**COVID-19 tests of students and staff will take place prior to class each Monday throughout March and will be revised in light of government guidelines**

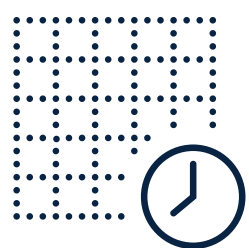

**Hand sanitiser at all entry and exit points to the building and in all classrooms. Plenty of signs to remind everyone to use it & to wash hands frequently**

**Everyone respects social distancing guidelines**

**Big classrooms with plenty of space. Each student has their own desk space which remains the same, and their own coursebook**

**When student numbers rise, we have a staggered timetable to ensure everyone has plenty of space during their classes and in breaktime**

**BEET has two staircases: one up and one down enabling a one-way system**

**Clear signage and tape marking which way to move around the building**

**An attractive outdoor area for breaks when the weather allows**

**Classrooms cleaned and sanitised at the end of each day. Surfaces and touch points cleaned throughout the day**

**Plenty of ventilation all round the building**

**The usual friendly welcome from Reception and Accommodation staff, but with screens in place**
